

PERKO®

FlushPro™ Inline Valve

Freshwater Flushing is as Simple as connecting a Garden Hose

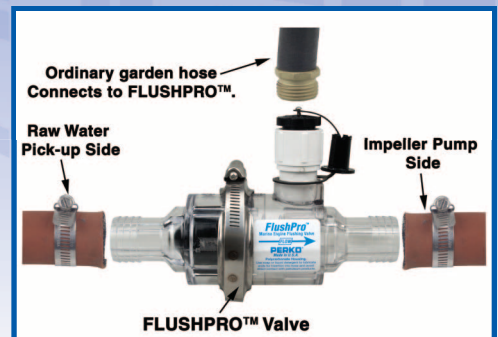

Fig. 0456

Features:

- Transparent body offers the ability to provide a visual inspection of water flow.
- Supplied adapter makes winterizing easy.
- Check valve automatically shuts off raw water intake when water pressure is applied.

For Dealers:

- Ideal for offseason work.
- Good profit potential with unit sale and installation work.

Available as either:
Standard Valve for 5/8", 1" or 1-1/4"
Hose Sizes, or Complete
Installation Kit
