

425,000 Sq. Ft. Home of PERKO

# THE PERKO STORY

PERKO, Inc. is a privately owned, family operated business, founded in the late 1880's by Frederick Perkins. Private ownership allows PERKO to function and react quickly to today's market needs. Under the direction of the Perkins family, the employees take personal pride in the quality of all PERKO products. As a manufacturer, PERKO prides itself on being a leader in the marine industry and having a long term commitment to quality.

PERKO also prides itself on being a truly integrated manufacturer, almost completely independent of outside vendors, with the exception of a few basic items such as light bulbs, electric wire, etc. A wide range of complete in house capabilities, from product design through manufacturing and assembly of finished products, enables us to eliminate most subcontractors and obtain better control of our product quality, cost and delivery.

# GENERAL INFORMATION

#### SALES POLICY

PERKO Products are sold through our established Distributors. We do not sell direct to the public or organizations. Therefore, possession of this catalog does not infer an offer to sell. Please contact your local marine supplier.

#### PRICES AND TERMS

Our costs are subject to change due to causes beyond our control. Therefore, our price list is only intended for the guidance of our customers and does not necessarily establish current prices. A Repackaging Service Charge of \$10.00 net will apply to all broken packages. All prices are subject to change without notice. Terms are 1% 10 days, net 30 days.

Orders from firms having no satisfactory history or credit rating with us must be prepaid. C.O.D. shipments will be made if a 25% deposit is sent with order. Cash discounts do not apply to C.O.D. shipments.

#### ONE YEAR LIMITED WARRANTY

PERKO, INC. (PERKO) warrants to the original commercial-purchaser that PERKO'S commercial products will be free from defective materials or workmanship, and that the PERKOPLATE/PERKO•KOTE Finish will remain corrosion-free under normal use and service, for a period of one (1) year from the original purchase date.

ALL IMPLIED WARRANTIES, INCLUDING MER-CHANTABILITY, ARE ALSO LIMITED IN DURATION TO THE ONE YEAR PERIOD FROM THE ORIGINAL PUR-CHASE DATE.

PERKO SHALL NOT BE LIABLE FOR LOSS OF USE OF ANY OF ITS COMMERCIAL PRODUCTS, NOR FOR OTHER INCIDENTAL OR CONSEQUENTIAL COSTS, EXPENSES, OR DAMAGES INCURRED BY THE ORIGINAL COMMERCIAL-PURCHASER OR BY ANY OTHER PERSON.

SOME STATES DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS, SO THE ABOVE LIMITATION MAY OR MAY NOT APPLY TO YOU. SOME STATES DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATION OR EXCLUSION MAY OR MAY NOT APPLY TO YOU.

This warranty is void if the commercial product warranted has been damaged by accident or unreasonable use, neglect, improper service or other cause not arising out of defects in material or workmanship. Excluded from this warranty are Electric Light Bulbs (lamps), Scaled Beam Units and Fuses.

During the warranty period, your PERKO product will either be repaired or it will be replaced with a like product (at PERKO's option) without charge to the original commercial-purchaser, when returned prepaid and insured, with proof-of-purchase date to PERKO at the address shown below. In the vent of replacement, the replacement product will continue the warranty of the original product, or ninety (90) days, whichever is longer.

PERKO does not authorize any person or company to create for it any other obligation or liability in connection with any of its products.

#### DESIGNS

For the purpose of constant improvement in our products, the designs and specifications are subject to change without notice.

#### RETURN GOODS

Products made to order are not returnable. Stock products in new, saleable condition are only returnable when permission has been granted by us, and are subject to handling and repackaging charges. Return shipping charges must be prepaid. Purchase date and invoice number are required when requesting an R.G.A. (Return Goods Authorization) number. Permission must be requested within 30 days after receipt of goods.

#### WEIGHTS

The weights given in this catalog are approximate, but should be sufficient for general purposes.

#### SHIPPING INSTRUCTIONS

Customers should send specific shipping instructions; otherwise, we will use our own judgement in selecting route.

#### SHIPMENTS

F.O.B. our plant, Miami, Florida, unless quoted otherwise. We are not responsible for damage, loss or delay after goods are delivered to carrier. When loss or delay occurs, we will gladly assist in tracing or expediting, but such assistance is no criterion of responsibility.

When there is loss or apparent visible damage to a shipment, when tendered for delivery, do not give the carrier a clear receipt. Note such damage on the carrier's delivery receipt and have the driver sign the receipt.

#### CONCEALED DAMAGE OR LOSS

- Advise the delivering carrier in writing as soon as discovered or at least no more than 15 days after delivery, and request carrier to make an inspection.
- Retain for the carrier's inspection, the container and all packaging that the damaged or lost material was packaged in.
- Shortages Must be reported to us within 15 days after receipt of goods.

PERKO'

# U.S. GOAST GUARD REGULATIONS

On March 31, 1977, the U.S. Coast Guard published in the Federal Register, an amendment to the navigation and navigable water regulations, which added a new subchapter DD, (33CFR 87). This subchapter contains rules implementing and interpreting the International Regulations for Preventing Collisions at Sea, 1972 ('72 COLREGS). The International Regulations for Preventing Collisions at Sea, 1960, were replaced by the '72 COLREGS at 1200 hours, zone time on July 15,1977. Therefore, all vessels on the high seas must comply with the '72 COLREGS at this time. In addition, with the enactment of the U.S. Inland Navigation Rules Act of 1980, the Inland Rules, Western Rules, and Great Lakes Rules were unified into a single set of requirements. The effective date for this legislation was December 24, 1981 (March 1, 1983 for Great Lakes). Therefore, all vessels must comply with these rules at this time.

Rules 21 and 22 of the '72 COLREGS and the U.S. Inland Navigation Rules give the color and range requirements for various navigation lights. Annex 1 to the '72 COLREGS and the U.S. Inland Navigation Rules gives positioning and technical details for these lights.

#### U.S. COAST GUARD ACCEPTANCE OF NAVICATION LIGHTS

All U.S. Registered vessels are subject to either the '72 COLREGS or the U.S. Inland Rules. The U.S. Coast Guard is accepting lights that have passed the U.L. tests (U.L. Standard 1104) as meeting the '72 COLREGS and the U.S. Inland Rules for vessels over 20 meters (65.6 ft.) in length. U.S. requirements for smaller vessels are less strict. As the first domestic manufacturer to pass U.L.1104, PERKO's lights can be installed on vessels over 20 meters (65.6 ft.) in length. Some models are designed for use on vessels over 20 meters (65.6 ft.) in length, while others are designed for use on vessels 20 meters (65.6 ft.) to 50 meters (164.0 ft.) in length.

A brass tag is permanently affixed to the light indicating the type of light, catalog no., voltage and bulb type to install to meet the visibility requirements. It also states that the light is classified by U.L. in accordance with the '72 COLREGS. This is the only documentation needed by a vessel for navigation lights to certify light construction compliance with the '72 COLREGS and the Inland Navigation Rules, and eliminates the former "Certificate of Compliance".

#### EACH LIGHT HAS ITS OWN SERIAL NO. FOR IDENTIFICATION.

The lights indicated for use on vessels over 20 meters (65.6 ft.) in length have passed U.L.1104. The facsimile of the tag shown above is used on our cast bronze & plastic lights. Similar rectangular tags are used on other style lights.

Please note that <u>any changes</u> made to PERKO Navigation lights, including substitution of bulbs other than those shown in our catalog, instruction sheets, or metal tags (affixed to some lights) <u>will void all certifications and U.S. Coast Guard acceptance.</u>

For the present, the U.S. Coast Guard will not publish a list of U.L. classified lights. However, field offices have been notified. For more detailed information, consult the complete '72 COLREGS, the U.S. Inland Navigation Rules, and your local U.S. Coast Guard office.

#### SPECIAL PURPOSE LIGHTS

Other lights (not shown) for use where the vessel is subject to special local requirements are available. Contact PERKO for further information.

# MERITON GERUNS HERONG G

FOR COMMERCIAL POWER DRIVEN VESSELS OVER 20 METERS (65.6 Ft.) IN LENGTH.

This Chart is Provided as a guide for Light Selection, Not Positioning. Refer to the "72 COLREGS and the U.S. Inland Navigation Rules for positioning Details. Depending Upon the Activity of the Vessel, It May be Required to Carry a Combination of Several of the Types of Lights Listed Below. Consult your Local U.S. Coast Guard Office for Specific Vessel Requirements. Refer to Product Listings for Specific Visibility Arc and Range Requirements.

# SOME RAY SPARROLLIGHTS

# 883/884/885 SERIES 10", 12" or 14"

CAST BRONZE AND HEAVY GAUGE BRASS.
POLISHED CHROME OR WHITE PERKO • KOTE FINISH.
12, 24, 32, 120 or 230 Volts.

The 800 Series - Solar-Ray® Searchlights are available in 10", 12" and 14" sizes with your choice of Deck, Wheel, or Lever/Gear Controls. All models feature: halo deflectors, parabolic glass mirror reflectors for maximum light output and ventilation covers for quick dissipation of heat to help prolong bulb life. Hinged front doors have quick release stainless steel latches to provide easy access for bulb replacement. The 800 Series models are also available in our white PERKO•KOTE finish; an advanced powder coating process that eliminates the need for painting while providing a scratch resistant and chip-proof surface for painting when necessary to match the color of the vessel.

Bulbs are not included and must be ordered separately. PERKO offers a choice of the traditional incandescent or the brighter, more piercing quartz-halogen bulbs in a broad variety of voltages and wattages to fit every need. For complete information on bulbs and candlepower output, see page 31.

#### **CONTROL TYPES**

#### **DECK CONTROL**

Equipped with handles on the rear cover for positioning.

#### LEVER CONTROL

Aim handle for horizontal position. Move handle up and down for vertical position.

#### WHEEL CONTROL

Turn upper wheel for horizontal position. Turn lower wheel for vertical position.

#### LEVER/GEAR CONTROL

Aim handle for horizontal position. Twist handle for vertical position.

## BUDB & SUCRET ORDERING INFORMATION FOR SUDAR RAY SEARCHDIGHTS

### 883/884/885 SERIES - 10", 12" AND 14"

#### **BULBS ARE NOT INCLUDED IN LIGHTS**

To give good results, the bulb and reflector must be perfectly compatible; therefore be sure to specify the catalog number of the bulb desired. Peak candlepower is exceedingly sensitive to many factors, (i.e., a light source out of focus by 1/32 inch, under-voltage of only 4%, or differences between bulb manufacturers) which can cause a reduction of range of up to 20%.

#### INCANDESCENT BULB ORDERING INFORMATION

Bulb Catalog <u>Number</u>	<u>Voltage</u>	<u>Wattage</u>	Socket Type	Socket Code <u>Letter</u>	For Searchlight Sizes Inches	Rated* Life <u>Hours</u>	Mfg. Bulb <u>Code</u>
806	32	500	Medium Screw	В	10, 12, 14	50	DLT

	120	1-3/8	811	1000	50	2,249,000	4.0	5.1
	120	1-1/2	807	500	25	2,353,000	3.2	3.2
	120	1-1/2	809	750	25	2,422,000	3.7	4.0
	120	1-1/2	846	1000	200	2.586,000	3.8	5.0
	120	1-1/2	810	1000	25	2,621,000	4.0	4.5
	120	1-5/8	839	900	75	2,889,000	4.5	5.2
	230	1	860	1000	950	1,021,000	7.7	6.2

<sup>\*</sup>The approximate ranges listed above are based on photometric measurements of beam candlepower output under ideal conditions. Many factors such as atmospheric conditions, size and color of target, background, etc., may reduce effective range considerably; therefore, these figures are offered only as a guide to compare different bulb and voltage options.

<sup>\*\*</sup>NOTE: These are the "Rated Average Laboratory Life in Hours" of the Bulb Manufacturer obtained in closely controlled laboratory life testing of groups of lamps at their design voltage. It is not necessarily the same as the service life where conditions such as shock, vibration, voltage fluctuation and environment may result in a shorter average attained life.

# 19 MOI SOFAR RAY SEARCHIEFINS

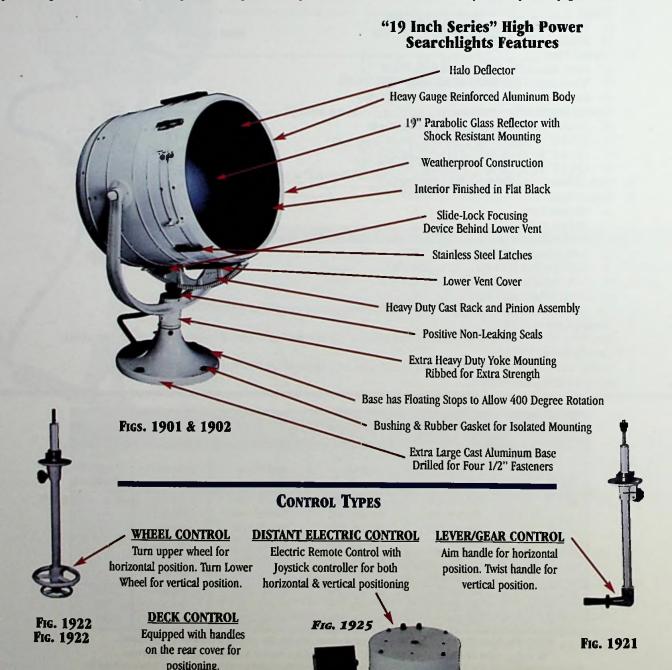

#### 1901 & 1902 SERIES

ALL ALUMINUM - WHITE PERKO • KOTE FINISH 32, 120 or 230 Volts

The 1900 Series - Solar-Ray® Searchlights are designed and built with the commercial user in mind where maximum size and brilliance counts. These units are constructed of marine aluminum with heavy duty castings and heavy gauge reinforced bodies for extra durability. They are finished in our white PERKO®KOTE finish; an advanced process that eliminates the need for painting while providing a scratch resistant and chip-proof surface for painting when necessary to match the color of the vessel.

The 1900 Series is available with Deck, Wheel, Lever/Gear or Distant Electric Remote Controls. All models feature halo deflectors, parabolic glass mirror reflectors for maximum light output and ventilation covers for quick dissipation of heat to help prolong bulb life. Hinged front doors have quick release stainless steel latches to provide easy access for bulb replacement.

Bulbs are not included and must be ordered separately. PERKO offers a choice of the traditional incandescent or the brighter, more piercing quartz-halogen bulbs in a variety of voltages and wattages. For complete information on bulbs and candlepower output, see page 36.

#### **BULBS ARE NOT INCLUDED IN LIGHTS**

#### **BULB ORDERING INFORMATION FOR 19 INCH SEARCHLIGHTS**

To give good results, the bulb and reflector must be perfectly compatible; therefore be sure to specify the catalog number of the bulb desired. Peak candlepower is exceedingly sensitive to many factors, (i.e., a light source out of focus by 1/32 inch, under-voltage of only 4%, or differences between bulb manufacturers can cause a reduction of range of up to 20%).

For a More Concentrated Beam, Longer Range, Brighter Light and a Longer Life, We Recommend the Quartz/Halogen Bulbs.

Voltage	Approx. Range Miles*	Bulb Catalog Number	Bulb Type	Socket Type	Socket Code Letter	Wattage	Rated Life Hours**	Maximum Candlepower Output	Horizontal Beam Spread Degrees	Vertical Beam Spread Degrees	Mfg. Bulb Code
32	1-2/3	806	Incandescent	Medium Screw	В	500	50	3,520,000	3.5	3.7	DLT

120	1-7/8	846	Quartz/Halogen	Medium Prefocus	E	1000	200	4,601,000	4.5	5.4	BTR
120	2	848	Quartz/Halogen	Mogul Prefocus	L	1500	100	5,596,000	5.9	5.7	DTA
120	2	810	Incandescent	Medium Prefocus	E	1000	25	5,622,000	3.6	4.2	DRS
120	2	839	Quartz/Halogen	2-Pin Prefocus	K	900	75	5,769,000	5.9	5.4	BVA
120	2-1/8	840	Incandescent	Mogul Prefocus	L	1500	25	5,968,000	5.6	5.4	DTJ
230	1-3/8	860	Incandescent	Medium Prefocus	E	1000	950	2,162,000	7.9	6.5	FKD

<sup>\*</sup>The approximate ranges listed above are based on photometric measurements of beam candlepower output under ideal conditions. Many factors such as atmospheric conditions, size and color of target, background, etc., may reduce effective range considerably; therefore, these figures are offered only as a guide to compare different bulb and voltage options.

#### Please Order Carefully, Bulbs Are Not Returnable.

\*\*NOTE: These are the "Rated Average Laboratory Life in Hours" of the Bulb Manufacturer obtained in closely controlled laboratory life testing of groups of lamps at their design voltage. It is not necessarily the same as the service life where conditions such as shock, vibration, voltage fluctuation and environment may result in a shorter average attained life.

#### Electric Socket and Support Stand Assemblies for 19 Inch Searchlights

Solar-Ray \* Searchlights include a socket and support stand based on the bulb or socket information given when ordering. The following chart makes it possible to order and stock different assemblies for field conversion, to meet a large variety of voltage and candlepower requirements with a minimum of inventory.

## VAVRO RAY WENTON SHATRUHITEHTIS

## VARO-RAY™ XENON SEARCHLIGHTS

15" HOUSINGS - 500 WATT, 110 OR 220 VAC POWER SUPPLY 19" HOUSINGS - 1600 WATT, 220 OR 440 VAC POWER SUPPLY

VARO-Ray Xenon Searchlights are designed and manufactured to meet the demanding needs of commercial marine applications. The short arc Xenon filled lamps produce an extremely bright and very white light which can be focused in the pilothouse into a narrow long range beam. The heavy duty head of the 1,600 watt light is a marine grade aluminum casting with integral cooling fins to assure cool operation at high output levels. The cast marine aluminum yoke & base are equally rugged. High quality Timkin bearings provide for smooth 380° rotation.

The VARO-Ray 9854 Series is available manually controlled with a traditional lever gear control system or remotely controlled with a distant electric control system. In addition, an optional heating capability is available to assure trouble free operation in areas of the world prone to icing conditions. The 9854 Series searchlight can be operated continuously at 1,600 watts for maximum brightness providing in excess of 100,000,000 candle power and up to 5.5 mile (IES Handbook) range. The 9304 series searchlight can be operated continuously at 500 watts for a maximum brightness of 35,000,000 candlepower and over 3 1/2 mile (ES Handbook) range. An iridium coated precision reflector provides for maximum light output and sharp focus. The remote control panel controls lamp ignition (start-up) and focus from the pilot house. Superior cooling is provided by a heavy duty cooling fan which blows air across the lamp inside the sealed housing.

Both Series Searchlights include a single Xenon lamp. Perko offers a choice of several replacement lamps (800, 1,000 & 1,600 watt) which will operate in the series 9854 searchlight when the proper amperage settings have been chosen. For the 9304 series, a 500 watt Xenon lamp is the only available option.

## VANRO RAYSTANION SHARROHILLOHUS

## VARO-Ray™ Xenon Lamp Ordering Information

#### **WARNING!!**

Xenon lamps are filled with Xenon Gas under high pressure. They may explode in either hot or cold state, especially if dropped or mishandled. <u>ALWAYS</u> wear protective safety equipment (a protective face mask with neck guard, chest protector, heavy clothing and leather gloves) when handling a lamp.

Fig. 9511-000 500 WATT POWER SUPPLY

VARO-Ray<sup>tm</sup> power supplies are made using high quality, durable components. Power supply units be easily can exchanged for factory rebuilt units offering a low cost means of repairing or upgrading older units in the field. All power supplies include a remote panel for controlling lamp ignition and focus.

VARO-Rayum lights can be

controlled using conven-

tional mechanical lever gear controls or upgrad-

ed to remote distant

electric control systems. The standard length for lever gear systems is 72

inches. Custom lengths

are available. In either

case searchlight movement is 380° horizontal

and 70° vertical.

A unique design feature of the 1600 Watt VARO-Ray'm Searchlight is the case with which the optical assembly can be changed. By removing a few bolts and easily

accessible wires, the

entire assembly comes

out the front of the

searchlight as one complete unit. Even

lights can be upgrad-

ed to current technol-

ogy with just a simple

swap out of optical

assemblies and power

older

supplies.

Spare Emulator Kit for Fig. 9854 (See Manual Fig. 9581-001 for item list). 9582-005

A number of custom produced tools make working with and on VARO-Ray<sup>tm</sup> searchlights easier. One of the best (and safest) ways to evaluate the performance of older units in the field is with the Xenon lamp emulator kit which simulates Xenon lamps while running and during start-up. Other tools help adjust focus and install lamps.

## VAVRO RAYPUNION SPAYROHILICHIOS

#### Major Component Maintenance Program

Varo-Ray Searchlights are designed around a modular component concept. This makes replacing major assemblies like the Optical Assembly, Distant Electric Controls and the Power Supply extremely simple. Our new Major Assembly "Swap out" program is designed to take full advantage of this feature. As an alternative to attempting to fix or replace individual components on board, complete assemblies can be exchanged inexpensively for factory rebuilt replacements. The sturdy shipping containers can be used to return the old assembly for core value. We determine the core value based on the condition of the components and issue credit for their value. There are two ways to take advantage of this program:

- 1. Major Assembly Maintenance Plan At the time you purchase your new Varo-Ray searchlight, you can contract for this plan which extends your original warranty from 12 months to as long as 60 months. The plan can be paid for completely at the time of purchase or renewed annually (provided the warranty does not expire before renewal).
- 2. Per Occurrence Any time while you own your Varo-Ray light, you can purchase a rebuilt assembly (providing you return the failed unit for core credit). These assemblies are factory rebuilt by qualified technicians and tested to the same standards as new assemblies. They come with a 6 month warranty.

Rebuilt components can be ordered ahead of time so they arrive during scheduled maintenance periods. Or you can use the program for on the spot repairs. There is usually an inventory of rebuilt assemblies on hand and available for quick emergency shipment. Here are the assemblies in the program. Give us a call for more details and prices.

Figure	Item Description
<u>Numbers</u>	Major Replacement Assembly
9501-000-EXC	Complete 19" Searchlight Head (1)
9504-000-EXC	Complete 15" Searchlight Head (1)
9510-000-EXC	1Kw Power Supply
9511-000-EXC	500 W Power Supply
9512-000-EXC	1.6 Kw 220 Volt Power Supply
9514-000-EXC	1.6 Kw 440 Volt Power Supply
9521-000-EXC	Removable 1600 Watt Optical Assembly (2)
9530-000-EXC	Standard Length Mechanical Controls
9551-000-EXC	Distant Electric Controls
9570-000-EXC	Electrical Heating System
(1)	Includes Head, Optical Assembly, Yoke & Base.
	DOES NOT INCLUDE LAMP.
(2)	DOES NOT INCLUDE LAMP.

## BAYTHARY SHEROTOR SWITCHES

#### FIG. 8603 - HEAVY DUTY BATTERY SELECTOR SWITCH

#### IGNITION PROTECTED

MAKE BEFORE BREAK DESIGN, FOR USE WITH TWO OR MORE BATTERIES AND SINGLE OR DUAL ENGINES. ALTERNATOR FIELD DISCONNECT TO PREVENT DAMAGE TO ALTERNATOR IF ACCIDENTALLY SWITCHED TO THE "OFF" POSITION WHILE ENGINE IS RUNNING.

FIBER-REINFORCED POLYCARBONATE BODY 1/2 INCH DIAMETER BRASS BATTERY TERMINALS
FOR USE WITH SYSTEMS UNDER 50 VOLTS.
CAPACITY - RATED 380 AMPS CONTINUOUS,
850 AMPS Intermittent (5 Minutes on, 5 Minutes Off).

## MINARE WAYDER STRAINERS

#### FIGS. 493 & 500 - INTAKE WATER STRAINERS

#### CAST BRONZE

PERKO WATER STRAINERS ARE DESIGNED FOR EASY INSTALLATION AND CLEANING. FEATURES INCLUDE MOUNTING LUGS CAST INTO BOTH SIDES TO ASSURE UNIVERSAL MOUNTING, FOUR OUTSIDE TIE RODS AND A 304 STAINLESS STEEL STRAINER BASKET TO MINIMIZE ELECTROLYSIS. SCREEN HOLE SIZE DIAMETER .077 INCHES, 46% OPEN AREA. HINGED LUGS FOR THE CAST BRONZE COVER PERMIT EASY REMOVAL AND CLEANING OF THE STRAINER BASKET. A DRAIN PLUG IN THE BOTTOM CASTING IS PROVIDED FOR EASILY REMOVING SEDIMENT AND DRAINING FOR WINTERIZING.
